Our Story since 2003

Sol&Luna launches its new off-white Raw Leather

“Committed to the luxurious craft of leather”, best describes the artisans of Sol & Luna, a Spanish manufacturer and retailer which has become internationally known for its objects and furniture elegantly covered in leather by virtuous artisans.

In 2025, we are happy to announce the launch of our new off-white raw leather that is only used in the woven/braided collection. This leather has no tanning process, and it is only put into salt to soften the hide and to guarantee its conservation. It is characterized by its strength and durability. 100% eco-friendly and biodegradable leather.

In 2003, Sol&Luna was launched focused on using natural cow leather to form a product line of sustainable goods combined with an unparalleled standard of excellence. Nowadays, we use the highest quality materials given to uniquely talented artisans and the result is the incomparable contemporary craftsmanship collection.

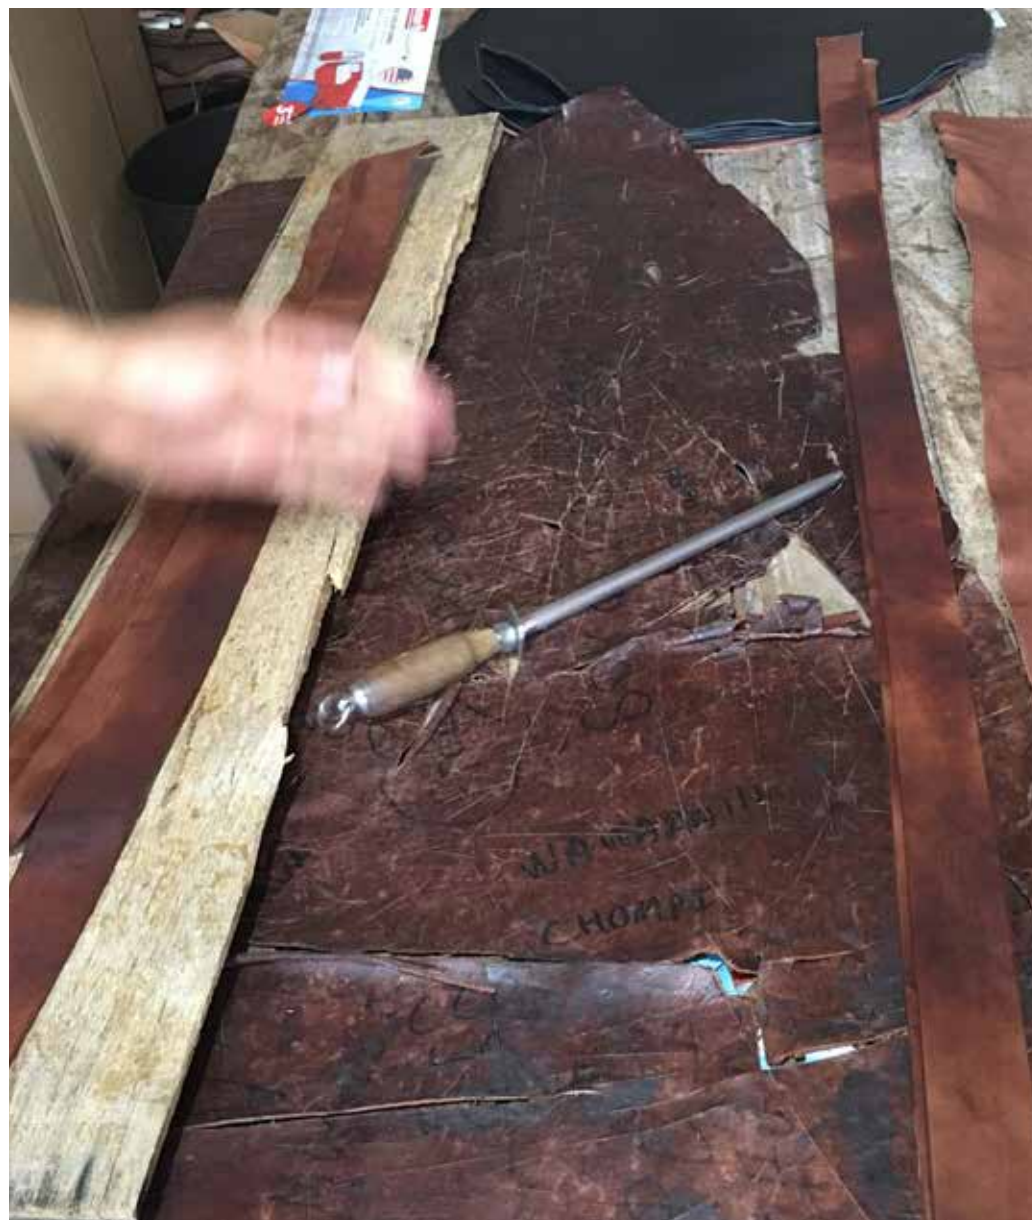

Starting 22 years ago with simple items such as salt and pepper grinders, flasks, trays, and ice buckets, the collection has grown through experimentation in seating, Deco, Tables, Coolers and our newest Home in Order collection.

During all these years, we have launched extravagant pieces covered in leather such as bicycles, Vespa motorbike and even a Citroen 2CV automobile or a Beetle car! . At Sol & Luna the possibilities are limitless.

Sol&Luna's store continues to please clients from its location in the famous Barrio de Salamanca Shopping District in Madrid. In order to meet the growing international demand, Sol & Luna's collection is now available through international exclusive retailers.

From restaurants and hotels around the world, to yachts on the Mediterranean, villas in France, chalets in the Alps, the fusion of European designs and Paraguayan craftsmanship yields original objects which our clients enjoy in the world's most exclusive settings.

**Your great support over these past years has allowed us to bring back
the values and quality of traditional craftsmanship!**

The Art of Leather

Sol&Luna's leather is completely natural, and our products are hand finished made from a fine cow leather. Handmade leather selected under an ecological tanning process.

The process begins with the original concept of using leather materials from South America, as part of a concerted Programme of development. We achieve this by using the finest South American leather, ensuring the highest quality at very reasonable prices.

Great care is taken during the tanning process to retain the natural characteristics of the leather. Examination of the finished product will reveal some variations of color, graining and briar marks from scratches sustained during the lifetime of the animal. All of which guarantee that each piece is unique.

Sol&Luna's leather is completely fireproof and therefore suitable for public use projects.

100% vegetal leather – 100% cow leather - handmade finished – hand sewn stitch leather – Spanish design

Seating

Sol&luna offers a wide range of handmade chairs, armchairs and stools covered in leather with hand stitching.

At Sol&luna we demonstrate the great versatility of leather, capable of adapting to any style of decoration.

The first chair we designed was the legendary Girón chair that has traveled around the world. A unique design that combines an iron structure and handmade leather covered seat.

Taking into account the great success obtained in both residential and contract sectors, we decided to develop new models.

Highlighting our claim "The Art of Leather", we also offer a Collection of chairs completely covered in leather.

Today we combine designs seats, structures/bases and different seat heights offering 13 seating collections.
