

“Committed to the luxurious craft of leather,
best describes the artisans of Sol & Luna”

OUR STORY

It all started when the owners of Sol&Luna were presented with an opportunity to invest in a cattle ranch in the jungle of the remote Paraguayan Chaco. After several visits it became clear that over generations, the people of this region had become agile craftsmen in leather and the opportunity to share their wonderful work became a passion

In 2003 Sol&Luna was launched, focused on using wood and leather from the Chaco region to form a product line of sustainable goods combined with an unparalleled standard of excellence; only the highest quality materials are given to uniquely talented artisans and the result is the incomparable Sol&Luna Collection.

Starting with simple items such as salt and pepper grinders, flasks, trays, and ice buckets, the collection then grew through experimentation in hunting stools, tables, armchairs, desks, and coolers and has since included such extravagant pieces as bicycles a Vespa motorcycle and even a Citroen 2CV automobile! At Sol & Luna the possibilities are limitless!

THE ART OF LEATHER

Sol&Luna's leather is completely natural and our products are hand finished made from a fine cow leather.

Great care is taken during the tanning process to retain the natural characteristics of the leather. Examination of the finished product will reveal some variations of colour, graining and briar marks from scratches sustained during the life time of the animal. All of which guarantee that each piece is unique.

Sol&luna leather is handmade and the tanning process is ecological, 100% Vegetable leather, 100% cowhide, handmade and hand sewn.
